**Course Outcome Competencies:** Upon completion of this course the student should be able to:

- Understand roles, responsibilities, and functions of Federal, State, and Local Homeland Security sectors and their interaction with communities
- Become well versed in Homeland Security theory, strategy, and intelligence capabilities
- Explore and understand Terrorism and how it applied to Homeland Security strategy management
- Become familiarized with how Homeland Security strategies are implemented across various venues throughout our nation

## Attendance Requirements

---

### WBUonline

Students are expected to participate in all required instructional activities in their courses. Online courses are no different in this regard; however, participation must be defined in a different manner. Student “attendance” in an online course is defined as active participation in the course as described in the course syllabus. Instructors in online courses are responsible for providing students with clear instructions for how they are required to participate in the course. Additionally, instructors are responsible for incorporating specific instructional activities within their course and will, at a minimum, have weekly mechanisms for documenting student participation. These mechanisms may include, but are not limited to, participating in a weekly discussion board, submitting/completing assignments in Blackboard, or communicating with the instructor. Students aware of necessary absences must inform the professor with as much advance notice as possible in order to make appropriate arrangements. Any student absent 25 percent or more of the online course, i.e., non-participatory during 2 or more weeks of an 8-week session, may receive an F for that course. Instructors may also file a Report of Unsatisfactory Progress for students with excessive non-participation. Any student who has not actively participated in an online class prior to the census date for any given session is considered a “no-show” and will be administratively withdrawn from the class without record. To be counted as actively participating, it is not sufficient to log in and view the course. The student must be submitting work as described in the course syllabus. Additional attendance and participation policies for each course, as defined by the instructor in the course syllabus, are considered a part of the university’s attendance policy.

## University Policies

---

[Link to Statement on Academic Integrity , and reference one of the following in regard to how generative artificial intelligence \(GAI\) such as ChatGPT may or may not be used in this course:](#)

- a. No use of any generative AI tools permitted.
  - i. Students are required to create and produce all work themselves or with assigned group members. Any work submitted that has used an AI generative tool like Chat GPT will be in immediate violation of the academic integrity policies for the course and WBU.
  - ii. All assignments must be fully created, designed, and prepared by the student(s).
  - iii. Any work that uses generative AI will be treated as plagiarism.

**Disability Statement:** In compliance with the Americans with Disabilities Act of 1990 (ADA), it is the policy of Wayland Baptist University that no otherwise qualified person with a disability be excluded from participation in, be denied the benefits of, or be subject to discrimination under any educational program or activity in the university. The Disability Services Coordinator and Academic Coach serves as the coordinator of students with disabilities and must be contacted concerning accommodation requests (office (806) 291-1057. Documentation of a disability must accompany any request for accommodations.

Accessibility issues with content in WBUonline courses or in Blackboard should be addressed to the WBU accessibility coordinator, Dr. Rick Hammer, [hammerr@wbu.edu](mailto:hammerr@wbu.edu) or call (806) 292-9150.

## Course Requirements and Grading Criteria

---

Students will be evaluated based on their performance in the following assignments: weekly discussion questions (DQs); journal article reviews; final paper updates; and the Final paper. All papers and DQ responses must be written in accordance with the American Psychological Association (APA) standards and style. Late work is not accepted in a graduate course except in extenuating circumstances.

### Discussion Questions (DQs):

Each weekly DQ assigned will be worth 50 points. An additional 25 points each, max of 50 (meaning you must respond to at least two other students), will be awarded for each substantive response given to other students' original postings to the discussion questions; that is, students' answers to the questions. Your DQ responses should contain 250 words or more for DQ1 and DQ2 plus reflect an understanding of the concepts being discussed at the appropriate level expected for graduate students; otherwise, points will be deducted. The total possible points you can earn per week is 100. You must respond to discussion questions during their week of application to receive credit. In other words, if you answer Week 1's discussion questions during Week 2, you do not receive any credit for Week 1. For our purposes, the week will *begin on Monday and end on Sunday*. Ensure your responses are written in accordance with APA standards. **Twenty-points will be deducted if sources are not properly cited.**

You will also need to support your DQ responses with empirical research. You can do this with peer reviewed journal articles, articles from professional organizations related to emergency management and crisis communication, or government reports. Peer reviewed means the article is evaluated by experts in the same field as the article's author(s). To ensure you are using peer reviewed articles,

search in the WBU library database for peer reviewed journals. **Not using additional sources to support your DQ arguments will result in a 20-point deduction for the week.**

Responses to discussion questions are to be submitted no later than 11:59 pm CST on Thursdays. **DQ answers posted after Thursday will incur a 25-point deduction per discussion question.**

Responses to students' original postings (their answers to the DQs) must be posted no later than 11:59 pm CST on Sundays to receive credit.

### **Journal Article Review:**

On specific weeks, students are to find and critique a peer reviewed journal article related to this course. The article can apply to the subject matter discussed for a given week or a topic of interest to you provided the topic remains relevant to this course. The article must be from a scholarly, peer-reviewed *academic journal*, a government agency involved in national security, or an appropriate think tank, i.e. the RAND Corporation. For this assignment, provide a pdf copy for peer review and specify the article's relevance to this course plus your interest in the topic. Points are awarded by the following criteria: 25 points for providing a copy of your specific journal article, 25 points for how well you evaluate the article's subject matter relevant to the course, and 25 points per response to at least two other students' articles. If you do not participate in the journal article review during the week it is assigned, you will not receive credit. Additionally, to ensure students have time to respond, all articles must be submitted by 11:59 pm CST on **Fridays**; *submitting after Friday incurs a 25-point deduction.*

Note: Only peer reviewed journal articles, appropriate government agency articles, or research publications from legitimate think tanks will be accepted. Responses to students' articles must be posted no later than 11:59 pm CST Sundays on the weeks assigned. *Be sure you properly cite your article – in the text of your response and in the reference list – in accordance with APA writing standards.*

**Incorrect citations will incur a 20-point deduction.**

### **Final Paper:**

Write a research paper that explores how Homeland Security needs to change to meet the challenges of emerging threats such as terrorism – domestic and foreign, the use of AI, cyberthreats, natural disasters, protecting critical infrastructure, etc. What new strategies and management models need to be employed for Homeland Security to remain responsive? How would these strategies be implemented across the nation and throughout the various levels of government? I recommend focusing on a single area or threat facing Homeland Security.

You should consider the following sample questions when researching and writing your paper:

- Which threat do you see as the most important facing Homeland Security?
- What strategy should be employed to mitigate this threat? How can the strategy be kept up to date and responsive to changes in the threat?
- What sort of crises can reasonably be faced regarding this threat?
- How are leaders prepared to handle and communicate disasters or attacks related to the identified threat?
- How would you explain and employ the use of local law enforcement and civil authorities? How would you inform the impacted communities?
- How would you evaluate the proposed response plans?
- What action planning steps would you incorporate to implement a response plan associated with the identified threat?

The paper should be 12-15 pages in length excluding a cover page, abstract (summary of the article, not an introduction to the paper), and reference list. Include a minimum of 10 scholarly sources. This assignment will be using the Safe Assign feature. Safe Assign provides you information regarding source citation. That is, Safe Assign will let you know if passages match passages from other published works. This highlights to you that perhaps you have not correctly or sufficiently given credit to original authors. This feature is intended to help you in writing your paper. A matching rate of 15% or less will be expected for this assignment. Failure to provide a safe assignment report will result in an automatic deduction of 15 points. When submitting your paper for the initial Safe Assign evaluation, do not include the reference list as this will skew your matching rate. You will be able to submit the paper up to 3 times, which should be enough tries to get the matching rate at or below 15%. When you submit the final version of your paper, then include the reference list.

By week 2, you will submit an outline of what you expect to cover. You may use the following format for the outline to explain your intended points:

Topic Specified:

Main Point I (identify Homeland Security threat being explored)

Subpoint A (source cited)

Subpoint B (source cited)

Main Point II (new strategies, management models that would be needed)

Subpoint A (source cited)

Subpoint B (source cited)

Main Point III (explain implementation of proposed strategy, timeline, action steps, measures of success)

Subpoint A (source cited)

Subpoint B (source cited)

Conclusion

Papers whose topics have not been approved will not be graded. Papers will also be judged on the level of analysis (appropriate for graduate level), grammar, spelling, and adherence to these standards.

**Failure to submit a paper will result in a failing grade for this class.**

Throughout the term you will be providing updates to your research paper. These updates will contribute to your final grade's computations.

#### **APA Tutorial:**

Complete the following APA tutorial. The tutorial should take no longer than 45 minutes—and even less if you are already familiar with APA Style. When you have completed the tutorial, please place a short statement in week 2's folder indicating you have completed and understand how to apply APA style. This will be graded as 100 or zero based upon your statement of completion. In other words, if you do the tutorial, you get a 100. If you ignore the tutorial, you get a zero.

<https://extras.apa.org/apastyle/basics-7e/#/>

#### **Note:**

All written work must conform to current APA guidelines (12-inch font, Times Roman, 1" margins, double spaced) unless otherwise indicated.

**Late Work:** Because this is a graduate course, late work will not be accepted except in emergency situations supported by documentation. Assignments are expected to be submitted on time. If you anticipate an issue submitting on time, then you need to communicate with me ASAP.

**Assignment Grading Weights:**

- 35% of grade is based on course room discussions and responses to other students
- 30% of grade is based on final paper
- 20% of grade is based on Journal Article Reviews
- 10% of grade is based on updates to your final paper
- 5% of grade is based on completing the APA tutorial

**The University has a standard grade scale:**

A = 90-100, B = 80-89, C = 70-79, D = 60-69, F= below 60, W = Withdrawal, WP = withdrew passing, WF = withdrew failing, I = incomplete. An incomplete may be given within the last two weeks of a long term, within the last week of an 8-week session, or within the last two days of a microterm to a student who is passing, but has not completed a term paper, examination, or other required work for reasons beyond the student’s control. A grade of “incomplete” is changed if the work required is completed prior to the last day of the next long 16-week term or 8-week session, unless the instructor designates an earlier date for completion. If the work is not completed by the appropriate date, the I is converted to an F.

**Student Grade Appeals:** Students shall have protection through orderly procedures against prejudices or capricious academic evaluation. A student who believes that he or she has not been held to realistic academic standards, just evaluation procedures, or appropriate grading, may appeal the final grade given in the course by using the student grade appeal process described in the Academic Catalog. Appeals may not be made for advanced placement examinations or course bypass examinations. Appeals are limited to the final course grade, which may be upheld, raised, or lowered at any stage of the appeal process. Any recommendation to lower a course grade must be submitted through the Vice President of Academic Affairs to the Faculty Assembly Grade Appeals Committee for review and approval. The Faculty Assembly Grade Appeals Committee may instruct that the course grade be upheld, raised, or lowered to a more proper evaluation.
