Attendance Requirements

You are expected to participate in all required instructional activities in their courses. Online courses are no different in this regard; however, participation must be defined in a different manner. Student “attendance” in an online course is defined as active participation in the course as described in the course syllabus. Instructors in online courses are responsible for providing you with clear instructions for how you are required to participate in the course. Additionally, instructors are responsible for incorporating specific instructional activities within their course and will, at a minimum, have weekly mechanisms for documenting student participation. These mechanisms may include, but are not limited to, participating in a weekly discussion board, submitting/completing assignments in Blackboard, or communicating with the instructor. Students aware of necessary absences must inform the professor with as much advance notice as possible in order to make appropriate arrangements. Anyone absent 25 percent or more of the online course, i.e., non-participatory during 2 or more weeks of an 8-week session, may receive an F for that course. Instructors may also file a Report of Unsatisfactory Progress for students with excessive non-participation. Anyone who has not actively participated in an online class prior to the census date for any given session is considered a “no-show” and will be administratively withdrawn from the class without record. **The Census Date for the Spring I term is January 20, 2023.** To be counted as actively participating, it is not sufficient to log in and view the course. You must be submitting work as described in the course syllabus. Additional attendance and participation policies for each course, as defined by the instructor in the course syllabus, are considered a part of the university’s attendance policy.

University Policies

Statement on Plagiarism and Academic Dishonesty: Wayland Baptist University observes a zero tolerance policy regarding academic dishonesty. Per university policy as described in the academic catalog, all cases of academic dishonesty will be reported and second offenses will result in suspension from the university.

Disability Statement: In compliance with the Americans with Disabilities Act of 1990 (ADA), it is the policy of Wayland Baptist University that no otherwise qualified person with a disability be excluded from participation in, be denied the benefits of, or be subject to discrimination under any educational program or activity in the university. The Director of Counseling, Career and Disability Services serves as the coordinator of students with disability and should be contacted concerning accommodation request at (806) 291-3765. Documentation of a disability must accompany any request for accommodations.

Accessibility issues with content in WBUonline courses or in Blackboard should be addressed to the WBU accessibility coordinator, Dr. Trish Ritschel-Trifilo, trifilot@wbu.edu or call (806) 291-3745.

Student Grade Appeals: Students shall have protection through orderly procedures against prejudices or capricious academic evaluation. A student who believes that he or she has not been held to realistic academic standards, just evaluation procedures, or appropriate grading, may appeal the final grade given in the course by using the student grade appeal process described in the Academic Catalog. Appeals may not be made for advanced placement examinations or course bypass examinations. Appeals are limited to the final course grade, which may be upheld, raised, or lowered at any stage of the appeal process. Any recommendation to lower a course grade must be submitted through the Vice President of Academic Affairs to the Faculty Assembly Grade Appeals Committee for review and approval. The Faculty Assembly Grade Appeals Committee may instruct that the course grade be upheld, raised, or lowered to a more proper evaluation.

Course Requirements and Grading Criteria

Course Assessment Activities: Throughout this course, you will demonstrate your mastery of the concepts covered by participating in discussion board threads, completing homework assignments, and conducting case studies of selected topics. For this course, the weekly homework assignments take the place of traditional exams and the case studies take the place of traditional research paper requirements.

Discussion Boards: Each week, two discussion board prompts will be posted within Discussion Board. Students will respond to each discussion board prompt during the associated week. Follow the instructions in the forum for due dates within the associated week. Additionally, each student will respond substantively to a minimum of two initial posts made by their classmates for each discussion and respond to any questions posted to their posts before the end of the week (i.e., responses to week 1 discussions must be complete by Sunday, midnight, of week 1). The quality of students' responses within these weekly discussion board sessions will be assessed. **Discussion Board Participation contribute 32% toward your final grade.**

Homework Assignments: Each week, there is a homework assignment due. The requirements will vary with each assignment, but the questions will be based on the information from the assigned readings for the week. These assignments are designed to ensure you grasp the concepts from the reading and give you a chance to demonstrate that understanding. **Homework Assignments contribute 32% toward your final grade.**

Case Studies: Every other week, there will be a case study (due weeks 2, 4, 6, and 8) based on the course materials covered in the week assigned and the week prior. Each case study should have 5 sections: (1) Summary, (2) identification of the problem, (3) your recommendations, (4) answers to any case study questions, and (5) your reflections on the case. Include a title page and reference page (no abstract) and utilize APA styling. Case

studies should have approximately 3-5 pages of body and include at least 1 scholarly reference aside from the course text (minimum of 2). **Case Studies contribute 36% toward your final grade.**

Procedures Used to Compute Final Course Grade:

Evaluated Area	Percentage
1. Discussion Board Posts and Substantive Peer Interaction	32%
2. Homework Assignments x 8	32%
3. Case Studies x 4	36%

The University has a standard grade scale:

A = 90-100, B = 80-89, C = 70-79, D = 60-69, F= below 60, W = Withdrawal, WP = withdrew passing, WF = withdrew failing, I = incomplete. An incomplete may be given within the last two weeks of a long term, within the last week of an 8-week session, or within the last two days of a microterm to a student who is passing, but has not completed a term paper, examination, or other required work for reasons beyond the student’s control. A grade of “incomplete” is changed if the work required is completed prior to the last day of the next long 16-week term or 8-week session, unless the instructor designates an earlier date for completion. If the work is not completed by the appropriate date, the I is converted to an F.

Tentative Schedule

This course outline serves merely as the anticipated roadmap to be used during this 8-week program. However, due to circumstances and the dynamic nature of this course, there may be some changes in the schedule.
